DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 22 and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed subject matter "A software program stored on a storage medium to implement the method" was not described or mentioned throughout the specification at the time the application was filed.

Allowable Subject Matter

2. Claims 1, 3-6 and 8-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The applicant's response (See Remark, page 8-9) filed on 09/19/2007, clearly states the inventive step of the instant application.
